Safety and Caution Information

Safety instructions

Adhere to the mounting instructions for the hardware provided on the inside of the packaging.

Be aware that there may be local or national building code regulations defining a minimum distance from the floor, or a requirement that wall or ceiling mounted equipment be secured to a rafter or other structure.

The Canvas wall mount was designed to hold Huddly IQ for Canvas, which hosts software designed for the purpose of enhancing whiteboard images. Do not replace Huddly IQ for Canvas with another camera or item.

Do not remove or replace the Canvas USB cable inside the Canvas wall mount. Only use in accordance with the instructions specified in the manual.

Temperature

This device is intended for use in ambient temperatures between 0 °C and 35 °C (32 °F and 95 °F). Avoid using or storing next to heat sources, in direct sunlight, or outside the intended temperature ranges.

Recycling

At the end of life for this product, local rules and regulations shall be followed. This product is ment to be recycled, and if applicable and/or possible, should be handed in to a collection point for recycling purposes.

Regulatory Compliance Information

European Union and United Kingdom

EMC conformance statement

This product, a Class A product, has been tested and found to comply with the limits for Class A equipment in accordance with European directives, United Kingdom statutory and harmonised standards. The limits for Class A equipment were derived for mainly non-residential environments to provide reasonable protection against interference with licensed communication equipment.

Notice: In a domestic environment this product may cause radio interference, in which case the user may be required to take adequate measures to correct the interference.

Recycling of waste electronic equipment

In the European Union and United Kingdom, this symbol indicates that this product must not be disposed of with household waste. It is your responsibility to hand it over to a designated collection point for the recycling of waste electronic equipment. For more information, please contact your local waste collection center or the point of purchase of this product.

United States of America and Canada

FCC compliance statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. this device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications.

Changes or modifications to the equipment not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Industry Canada statement

This Class A digital apparatus complies with CAN ICES-3 (A)/NMB-3(A).

Operation is subject to the following two conditions:

1. this device may not cause interference, and
2. this device must accept any interference, including interference that may cause undesired operation of the device.

Australia and New Zealand

This product, a Class A product, is C-Tick marked in accordance with the requirements of the applicable Australian and New Zealand standards.

In a domestic environment this product may cause radio interference, in which case the user may be required to take adequate measures to correct the interference.
